DIVERSITY, EQUITY AND INCLUSION (DEI)

Diversity, equity and inclusion (DEI) are key drivers to achieving our business and sustainability ambitions, and we are working to embed DEI within our culture as deeply as safety. We are committed to increasing representation of diverse employees at all levels within our organization and fostering an equitable and inclusive work environment that supports our global employees and the communities we serve.

ABOUT THE SITE

The LyondellBasell Edison Plant was built in 1929 and is located 24 miles from Newark near the Raritan River. The site manufactures catalysts for many polyolefin processes, with the majority of production being the company's Avant ZN catalysts. This is used in the production of polypropylene plastic resins. Serving as the supplier of polyolefin catalysts to the company's customers worldwide, the site recently expanded to increase capacity.

SUSTAINABILITY

As one of the world's largest producers of plastics and chemicals, our products are used by millions of people around the world, every day. We have the potential—and responsibility—to use this scale and reach to make a positive impact across our value chains. We work to deliver meaningful progress to address some of the world's most pressing challenges such as helping end plastic waste in the environment, mitigating climate change and contributing to a thriving society for our employees, the communities where we operate and the people who depend on our products.

PRINCIPAL PRODUCTS

- Polyolefin Catalysts

ADVANCING
GOOD

LyondellBasell is committed to being a responsible, good neighbor in the communities where we operate. Through our global corporate citizenship program, *Advancing Good*, we invest in charitable organizations supporting three key focus areas: Advancing Our Communities, Advancing Our Planet, Advancing Tomorrow's Workforce.

ABOUT LYONDELLBASELL

As a leader in the global chemical industry, LyondellBasell strives every day to be the safest, best operated and most valued company in our industry. The company's products, materials and technologies are advancing sustainable solutions for food safety, access to clean water, healthcare and fuel efficiency in more than 100 international markets. LyondellBasell places high priority on diversity, equity and inclusion and is *Advancing Good* with an emphasis on our planet, the communities where we operate and our future workforce. The company takes great pride in its world-class technology and customer focus. LyondellBasell has stepped up its circularity and climate ambitions and actions to address the global challenges of plastic waste and decarbonization. In 2022, LyondellBasell was named as one of FORTUNE Magazine's "World's Most Admired Companies" for the fifth consecutive year. For more information, please visit www.lyondellbasell.com or follow @LyondellBasell on LinkedIn.
